Scope

On behalf of the Air Liquide Central Europe entities, Vinçotte performed a claim validation of liquid nitrogen, liquid oxygen and liquid argon labelled “ECO ORIGIN” and sold by Air Liquide Central Europe entities in 2025. The validation was performed by Vinçotte in accordance with the methodology and procedures set out in the Claim Protocol Validation report¹ and the Verification Protocol Report². The Claim Protocol and the Verification Protocol were developed according to the ISO 14020:2022 “Environmental statements and programmes for products – Principles and general requirements” and ISO 14021:2016 “Environmental labels and declarations – Self declared environmental claims (Type II environmental labelling)”.

This statement may only be communicated and reproduced in its entirety and without change.

² Vinçotte nv 61217785_AirLiqCE.2

The types of products concerned by the Claim are: liquid nitrogen (incl. LIN Service), liquid oxygen and liquid argon (all qualities). To produce the quantities of aforementioned products, sold to the customers, Air Liquide Central Europe entities are committed to:

- Use renewable energy generated in Europe, Poland and Turkey for the production of aforementioned products.

Declaration of independence

The validation was carried out by Vinçotte as an independent third party.

Conclusion

Based on the work undertaken, it is the conclusion of Vinçotte that:

- All direct electricity use coming from the production of aforementioned products are accounted for by purchasing the equivalent amount of renewable energy in Europe, Poland and Turkey;
- The Product Carbon Footprint of aforementioned "ECO ORIGIN" products is correctly updated with the data of the year 2024 according to the ISO 14067.
